THE CLOSING QUOTATIONS OF MONEY.

Offerings and Sales at the Richmond Tobacco Exchange-Internal Revenue Collections Foreign Advices.

NEW YORK, Nov. 9.—Stocks opened depressed on further liquidation for fortigin account and lower cables from London. The situation abroau does not improve, and the indications point to failures of stock firms in London and Paris, owing to the heavy shrinkage in Kaubrs and other securities there. The early decline in prices here was equal to log the per cent. Lake Shore and Louisville said Nashville being particularly weak. Home operators, however, were not dismayed by the doleful news from abroad, and there was buying to cover short contracts right through the list. An improvement of tell's per cent. followed in this rise Sugar, Tobacco, Tennessee Coal and Iron, the Grangers, Leather preferred, Northern Pacific preferred, and Reading were all prominent. Sugar rose to 160%, Jersey Central to 196%. St. Paul to 75%, Northern Pacific preferred to 16, Tennessee Coal to 33%, and Reading to 12%. Near the close the rising tendency was checked by reports that arrangements had been made to ship \$1,000.00 gold by Wednesday's European steamers. On this report prices yielded 4 to % per cent, outside of Sugar sand Leather preferred, which fell per cent, each. In the inactive issues Canadhan Pacific brought \$3%, against 56%, the last previously reported sale. Speculation closed rather weak in tone, net changes showing lossess of 46%, per cent. LONDON, Nov. 2.—Bar silver, 30 12-16d. 6 P. M.—Faris advices quots 3 per cent. rentes at 100 francs for the account.

The New York Financier says this week; This statement of the Associated Banks for New York for the week ending November 9th in nowise reflects the usual vember 9th in nowise reflects the usual vember 9th in nowise reflects the usual vember 9th in the present market for funds. According to the tabulated statements the banks gained \$1,184,000 in cash, of which banks gained \$1,184,000 in cash, of which banks gained \$1,184,000 in cash, of which banks lost enough money through the interior movement to have partially offset this increase.

There is nothing in the present situation, however, that favors the continuance of larve shipments indefinitely. The demand for currency is not centralized in any section, but is rather scattering. The Northwest will probably need money scoon, but to what extent is uncertain. The shipments for the past week have been rather local in character and the receipts have been from nearby cities.

The heavy fluidation of the week is seen in the unusually large contraction of \$1,78,600 in loans. Not since May 18th bave the total leans been as low as reported last week and the contraction of \$1,78,600 in loans. Not since May 18th bave the total leans been as low as reported last week and the contraction of the veer. This heavy contraction in the loan column, which has amounted to fifteen million dollars in two months.

The money markes during the week shiftled signs of a fulling off in strength, but loans were generally maintained at about 2 per cent. On the other hand, the exchange marked, as a result of logical conclusions which have been foreseen for some time, developed considerable trength and the announcement Saturday that redd extents were to be made within the next four days created no surprise.

Several factors may operate to strength, and the area present signs of such a contingency. A period of latest rates is more pro

robable.

Richmond Real Estate Review.

In spite of the "prolonged depression," it is gratifying to know that the recent In spite of the "prolonged depression," it is gratifying to know that the recent "assessment" shows a decided advance over the one of four years ago, it is, however, a matter of regret that the various "annexes" and suburban developments are drawing, as they do, upon the growth of the mother city. It is conceded that the natural growth of a city greatly enhances some of its sections at the cost of others. As evidence of this fact, central residential property has suffered a severe shrinkage. There are very few transfers in "high-grade property." Yet when they occur prices are entirely satisfactory. Manufactories are mostly needed in the upbuilding of Richmond; get massifactories and, as a consequence, you have at once an increased population. Having been pushed, squeezed, and bled, business still goes on, and, from those who are qualified to know, we are upon the eve of prosperity. The recent elections have conclusively shown the moneyed interest of the country, that we are to have nothing but sound money; be it much or little, sound money it will be. Whilst business is not as active as would be desirable, yet there is greater encouragement as to the future.

A REAL ESTATE SALES-BOOM.

The greatest impetus that could possibly be given the real estate market would be the recurring a soles-room wherein could be made all auction sales. This move would inject new life into the business, and be the means of enlisting many buyers, who have not heretofore taken the trouble to "cross section" the town for the purpose of aftending an "open-air outery."

To Major Ginter and his associates is unanimously exterded the everlasting gratitude of our clitzens in having erected in this city the magnificent Jefferson, contrary to the prediction of a vast army of croakers, whiners and "do-nothings." May it prove a paying invesiment, as we believe it will; certainly if there is merit in a brilliant start, the Jefferson has it in full.

BEAUTY!

All the energy and resources of the foremost and best designers of this country were severely taxed by the manufacturers whose Furniture we offer you this season. And we've spared neither pains nor trouble to get before your eyes only the best productions. While you're on Broad street don't fail to see that

EMPIRE SITTING-ROOM SUIT

of ours, even if you don't have any idea of buying one. No one else has anything like it. Now, for Sideboards:

Buys a Massive Oak Sideboard, handsomely carved, not overdone with gawky gig-saw work, but an artistic piece of Furniture.

A big come-down in Figures, but \$13.50 is the price of a Neat,

Solid-Oak Sideboard. \$135

Buys a Sideboard and Table that were made for one another. Where else in the town will you find a Sideboard and Table that are the counterpart of one another?

\$65.

This is our brag Board. Just think of a Sideboard of the finest Quartered Oak, a finish rubbed by hand till it's made to rival a looking-glass; swell ends, swell front, two large semi-circular mirrors; 4 feet 8 inches wide and 7 feet high, \$65.

\$16.

When it comes to a cheap piece of Furniture, a manufacturer generally tries to give the biggest thing he can get up for the money, regardless of taste. On the contrary, with us good taste is the first consideration. To see this board is to buy it.

\$78.50

Pays for a Birch Board, natural finish; a 5-footer. We'll furnish you this Board, a very handsome China Case, a 10-foot Extension Table, and 6 Chairs at \$175.

\$36.

Large Glass, but small frame, with two shelves. A very pretty Oak Sideboard.

We've lots of other styles at all prices, but have not near enough room to give even a faint description of them. To thoroughly appreciate these goods you must see them. No other house in town can undersell us, but we can't prove this to you by print. You must see for yourself if we do not give a better grade of goods for the money than any one else.

Li., Nov. 2.—It having been learned that the decline in English Consols and the weakness in French Rentes was due, not to political trouble, but to an unsettled financial situation in Europe. the wheat market to-day naturally displayed veakness, as against the strength of yesterday. The activity was mainly local, with an occasional corder from New York or the Northwest, Private holders and scatters were the only active people in the market. Futs were good at the close, and the fortunate possesser of those options had abundant opportunity throughout the session to recover the money invested. The Russian crop estimate of 240,000,000 bushels had no perceptible influence on prices. The Modern Miller, of St. Louis, was decidedly bearist in its reforence to wheat, prepring favorable conditions consequent upon the copious rains of the past few days. Estimates of the increase that will bes hown in the visible supply, ranged from 2,750,000 bushels to 3,000,000 bushels to 5,000,000 bushels to CHICAGO.
